

K CRETE WPL

Internal High Performance Waterproofing Additive For Concrete and Plaster

Description :

K CRETE WPL is high performance integral waterproofing addition, which ensures perfect water tightness to concrete and plaster surfaces. K CRETE WPL is based on high performance polymers, which reduces the permeability through out depth of concrete.

Benefits :

- Ensure perfect watertight structure
- Easy to use-simple addition into concrete & plaster
- Reduces permeability through out the depth of concrete
- Economical : very low cost 60-70 paise per sq. feet (4" thick slab M15 grade concrete)
- No side effect: chloride free & free from corrosion
- Greater protection to steel reinforcement, hence increase durability of structure
- K Crete concrete surface: Ensure good finish of the concrete
- Increase strength: Apart from waterproofing. It increases strength of concrete & plaster
- Improves plasticity and cohesion aids easier placing & better compaction
- Does not affect the setting time of the concrete and mortar
- Being liquid-disperse instantly in to concrete/plaster mixer

How To Use :

CONCRETE: Add very precise quantity of K CRETE WPL in guaging water and incorporate that water into concrete mix.

PLASTER: Mix K CRETE WPL in precise quantity and add water into cement/sand mixture. Mix cement mortar thoroughly to ensure proper mixing.

Packing :

K CRETE WPL available in various packing depending upon levels 5, 10, 50, 100, 200 ltrs packing.

Dosage :

K CRETE WPL can be added & 100 to 250 ml per 50 kg bag of cement in concrete & plaster. However optimum dosage is 150 ml/per 50 kg bag of cement.

Free Technical Support :

K CRETE wpl is pleased to provide technical support at your site subject to location of our office or dealer office.

Typical Properties :

Colour: Dark Brown Based: specially produced polymers. PH:7 ± 1. Usage Instruction: Shake well before use. Do not add K CRETE WPL directly to concrete.

Health & Safety :

K CRETE WPL is mild alkaline splashes on skin should be washed with water. If contact with eyes occurs wash with plenty of water and seek medical help.

Note :

All information is given in good faith on the results gained from experience and tests. However, all recommendations or suggestions are made without guarantee since we don't have any control on site conditions and its uses.
